

Introducing CORI Hornbæk Hotel

Opening in Hornbæk, Denmark, in 2026.

‘While Copenhagen is cool and casual, the riviera is warm and refined. Why choose one, when you can have both?’

Hornbæk, Denmark –A new chapter of quiet luxury is about to unfold on Denmark’s northern coast. The name has been chosen. The story is beginning. CORI Hornbæk Hotel will open its doors in mid-2026, offering a one-of-a-kind retreat in one of Denmark’s most beloved seaside towns.

With its name echoing simplicity and soul, CORI invites guests to experience life by the sea—unhurried, unfiltered, and utterly unforgettable.

‘Getting here is a breeze. Leaving is harder.’

Designed in collaboration with award-winning hospitality designer Afroditi Krassa, the hotel will embody a barefoot luxury ethos—sophisticated yet unpretentious, modern yet rooted in nature. From spa rituals to all-day dining, CORI will be a destination for both travellers in search of serenity, locals looking for a standout restaurant, or an ideal setting for off-site gatherings and unique personal moments..

Set just an hour north from the capital Copenhagen, CORI blends big city style with the soulful ease of Denmark’s riviera. Whether you're escaping for a weekend or simply wondering in off the beach, this is where time slows down—and breath deepens.

Stay tuned. More is coming.
